**Remote Keyless Entry CANOPY
ISUZU D-MAX ALL NEW 2020**

Important

Always refer to the vehicle's Workshop Manual when removing vehicle components.

- Note down all clock and radio settings.
- In the engine bay, disconnect the negative battery terminal (1).

On RG-01 D-MAX, remove the RHS kick panel under the glove box.

Locate RHS door inline connector as shown

2) Remove the mounting bolt on the connector interface.

Once disconnected, turn over the connector interface to access the required circuits.

1) Remove the connector lever lock & disconnect from the interface.

Wiring harness for AU

Locate the Pale purple/Brown(3rd down on right) on the White 2nd from left "UNLOCK" signal. Using the scotch lock one the RKE cabin Harness,"UNLOCK" (GN/BK wire) as shown.
